

## About Company

Pathreports.in is a product of ANOOP TECHNOLOGY, a proactive organization based in Bangalore having it's prime focus in developing day to day used applications which can be used by a majority and help people to develop technologically.

For more than 10 years, we have helped many of the corporate houses of the world to rebuild their empire in a digital economy. We are now globally recognized. On one hand we help small NGOs to make a web presence, on the other hand we are implementing e-governance for conglomerate federations for tracking thousands and thousands of their members.

Anoop Technology is specialized in making web enabled softwares as an extension of Virtual Private Network. Pathreports.in, e-school, e-hospital are among them.

Please call us on +91-9891898567 to discuss your software requirement or mail us.

## About pathreports.in

Pathreports.in is a real time pathology reporting system which is designed in such a way so that it can be used from a small pathology to a big laboratory. On the pathology level it provides complete software to manage and maintain pathology data similar to your current pathology software but with enhanced features, more security and ease of use. On the customer end it provides the ability to view/print reports online or get reports on mobile by messaging the report number to 57333.

## Who should use PATHREPORTS.IN ?

- If you are a pathology owner and you want to reduce paperwork for your pathology, which includes but is not limited to printing charges, cost of paper sheets, cost of other stationary used, time consumed in handling a patient for printing and giving reports etc.
- If you want to keep a real time statistics of progress of your pathology, as well as know how many reports have been generated and how your employees are doing, then you should subscribe to pathreports.in.
- If you want to get rid of those costly, useless and old fashioned pathology softwares, then you should start using Pathreports.in.

## Advantages of using our application

There are various advantages which you get by using Pathreports.in.

- Decreased work load when you implement the system.
- You can analyze your pathology performance through graphs and stats and work accordingly to maintain it.
- You can view a log of how your employees are doing for pathology in your absence.
- In a year, you save stationary which cost more than the Subscription charges of the package.
- Now you won't have to worry about system crashes and data loss, as all the data of your pathology is stored on secure servers and automatic data backup in encrypted format is done by us every 3 hours.

- Nothing to install and nothing to download
- We offer full proof security for your pathology and your data is stored in encrypted format.
- Generate unlimited reports without any limits.
- It is not complicated and easy to use.

## Features of pathology software pathreports.in

**Pathreports.in** is loaded with a lot of features so as to make it more efficient, effective, secure and easy to use.

### Features useful for pathology

- Create quick reports in real time.
- A unique patient id for each customer which helps identifying the customer.
- Choose from more than 300 predefined tests in 17 categories and set their test rate, reference range and test method as per your needs.
- You can view/ edit/ print/ download/ sms/ delete the reports you generate.
- Add customer by name, mobile number, address, sex and age. If your customer already uses pathreports.in and have a patient id then just enter his patient id to add him to your pathology.
- View/ Edit/ Delete customers which make managing your customers easy.
- You can search for customer by his name, address, mobile number or patient id and then edit a customer or create a report for him.

- ▶ You can send reports or promotional sms directly to your customers.
- ▶ You can book a test for customer give him his report id and you enter the values once you finish the test.
- ▶ Reports generated by your pathology would be of your brand. You can set the header footer of the reports as per your wish.
- ▶ You can make sub account for your employees with limited access.
- ▶ You can view the employee wise and date wise log to see how your employees are doing.

## Features useful for your customers

- ▶ They will get their six characters unique patient id.
- ▶ They can view/print/download the reports online at the website pathreports.in by their unique report id or by using their patient id.
- ▶ No need to maintain that bulky reports file or fear for damage or loss of file. Just have your patient id with you and you can gain access to your reports from anywhere in the world.
- ▶ The first time customer uses his patient id, he will be asked to enter his password. This makes his reports accessible only to him and not to any other person knowing his patient id.
- ▶ They save a lot of time and resources coming to pathology just for taking their reports.
- ▶ To get report on mobile sms PR report no. to 57333. E.g. PR N77Q3X to 57333. You will get the reply message containing the report details.(Charges for reply message are born by pathreports.in)

## Testimonials we received from customers

We are mentioning a few of testimonials we received from our customers:

1.) I had been looking to put together a website like this for my pathology for two years. Then pathreports.in came along and showed me how easy it was. Their product proved to be a boon and was just how I wanted it. It's very easy to use and I know I can get help whenever I need it. You're the best; I love how it has turned out. Thanks for all your help!

- Dr. Rajesh Kumar from Percent health care Ltd.

2.) I would like to say a big thank you and tell others that pathreports.in is great to use. You are one of the best support and development people I've ever encountered!

- Ray diagnostics

3.) Our pathology became a great success - thank you so much for your support and assistance with the online pathology reporting. Not only our customers feel cared but others also switched to our pathology

- Amber pathology

4.) The service I have received from pathreports.in is absolutely reliable. Pathreports is very responsive to any inquiries I or my staff have made and continue to impress me with their dedication to ensure that we are being provided the best service possible.

- Vedant Pathology solution

We hope that we would be able to serve you like we served them.
